A Letter of gratitude.

Respected doctor,

Good Morning! I am Father S. Savari, a Catholic Priest aged 75, residing near 4 Roads. I take this opportunity to thank your good self and your medical staff through my few good words. On 16th of this month I approached your hospital (T.M.S) for my left eye treatment.

The way your staff attended my need impressed me very much and their service is much appreciable. Above all your reception and concern when I entered your room and your immediate diagnosis for the problem in my left eye and laser treatment ^{as per} your order, pleased me very much. Your treatment restored my sight. Now my sight is clear. I will ever remember and I will be ever grateful to you.

Here I would like to acknowledge that your TMS hospital is doing great service to the society because our vision is our life. Therefore you are saving many lives. As a religious priest I invoke God to bless your family, staff and your good self abundantly.

with much gratitude, yours truly

J. S. Savari
